

I am

**Monitoring
Team**

**I am trying
to**

**Monitoring
product with face
recognition
before harming
people and unique
alarm in industry.**

But

**I don't know
when crime occur
and particular
section industrial
problem.**

Because

**I can't monitor
the crime and
industrial
problem at all
time.**

**Which
makes me
feel**

**When ever crimes
occur the people
injure and suffer a lot
and the industrial
particular section;s
exploitation cause
genetic disorder.**
